

# The new generation of punches

You get a perfect fit without having to use unsightly moulded parts or accessories. Laying cored skirting using the Döllken punch will save you 50% of the time required for conventional laying of foiled MDF skirtings. Punch, glue and you're done!

The new generation punch with tool case distinguishes itself by:

- a new universal cutter for better punching
- additional support blocks
- new case with space for all the tools
- sturdy and high-quality tool case

# Improved punch tool in the new case

New universal cutter for better processing of all cored skirting boards

New support blocks for the EP 60/13 flex life, Cubu series and Hamburg style

New sturdy case design will accommodate all Döllken tools

## How do you benefit?

- all cored skirtings can be processed – never again problems with open outside corners or cracks in the skirting surface
- new support blocks for extra profile support – facilitating clean cuts
- The punch tool case is compatible with many tool cases currently available for power drivers, power drills, etc.
- Tools are safely stowed away and quickly to hand when needed

## The tool case sets

### The small tool case set contains:

Punch, XL clamping lever, scissors, press-on inserts, small bottle of oil, measuring template, folding ruler, pencil

### The large tool case set contains:

Punch, XL clamping lever, scissors, press-on inserts, small bottle of oil, measuring template, folding ruler, pencil, hot melt adhesive gun, 5 orange glue sticks, 5 transparent glue sticks, strip cutter

Single or  
as tool  
case set  
small/large
